

MD TANVIR HOSSAIN

East Kazipara, Mirpur-14, Dhaka | +8801707386142 | tanviraiub321@gmail.com

LinkedIn: [linkedin.com/in/mdtanvir0](https://www.linkedin.com/in/mdtanvir0) | GitHub: github.com/md-tanvir-0 | Portfolio: md-tanvir.vercel.app

SKILLS

LANGUAGE | C++ • C# • JavaScript & TypeScript • PHP • Python • SQL

BACK-END DEVELOPMENT | .NET (Core, Web API, MVC, Web Form) • NestJS • MySQL & PostgreSQL

FRONT-END DEVELOPMENT | Angular • React • NextJS • Bootstrap • Tailwind CSS

TOOLS & TECHNOLOGIES | Git & GitHub • Swagger • Postman • Docker • Jenkins • Jira • NLP • System Design

EXPERIENCE

Jr. Software Engineer, Technohaven Company Ltd.

August 2024 -- Present

VATPrompt (VAT TAX Automation Software)

- Spearheaded frontend development using Angular v19, building a low-code, reusable architecture with generic and dynamic components. Implemented JWT authorization, lazy loading and client-side caching for optimized performance.
- Developed scalable .NET Core backend APIs using N-Tier architecture and SOLID principles, enabling clean separation of concerns, efficient data transformation and rule-based business logic processing with PostgreSQL.

Kori Digital Banking

- Worked on a digital banking platform aligned with Kori Digital Bank, focusing on fully online banking services.
- Built a custom website using React for customer-facing features and assisted in developing a web application using Angular for internal banking operations.

TPMS (Task Progress Management System)

- Developed an automated task tracking system integrated with AI/ML for real-time activity monitoring, task classification and NLP-based summarization. Built backend services with .NET Core, local caching and RESTful integration.

Intern, Dr. Anwarul Abedin Institute of Innovation (D2A2I)

April 2024 -- August 2024

TRPSystem (Target Rating Points Analytics System)

- Contributed to R&D for the TRP System, a joint initiative by BSCL & D2A2I using ASP.NET Core and PostgreSQL for backend development and also enhanced UI/UX by implementing responsive design with React and Tailwind CSS.

EDUCATION

American International University Bangladesh - (AIUB)

Academic Years: 2020-24

Bachelor of Science in Computer Science and Engineering

Relevant Coursework: Data Structures & Algorithms • Advanced Programming with .NET • Advanced Programming in Web Technology (NestJS + NextJS) • Advanced Database Management Systems • Software Requirement Engineering • Artificial Intelligence and Expert System • Machine Learning

Thesis: Plant Disease Detection Learning with hybrid model using Machine Learning & Deep Learning

PROJECTS

RentEase - Rental Management System

- Developed a rental management system using ASP.NET Web API with N tier, repository pattern and SOLID principles.
- **GitHub:** github.com/md-tanvir-0/HEMS--Final-Project--ASP.NET--Web-API

Hunger0 - NGO Management Platform

- Developed a food distribution system using ASP.NET MVC with donor-recipient matching and inventory management.
- **GitHub:** github.com/md-tanvir-0/ASP.NET/tree/main/ZeroH

FinTech - Mobile Banking System

- Created a full-stack mobile banking app with NestJS and NextJS, including scalable APIs and role-based access control.
- **GitHub:** github.com/md-tanvir-0/Adv-WebTech/tree/main/mobile-banking-management-system

Event Management System

- Developed a web app with PHP, AJAX, and jQuery, integrating Bootstrap for responsive UI. Applied MVC architecture with clear separation of concerns and used custom statement handling to prevent SQL injection.
- **GitHub:** github.com/md-tanvir-0/Event_Management_System

TRAINING & CERTIFICATIONS

EDGE Bangladesh

- Participated in a hands-on program focusing on cutting-edge web technologies, including React and NodeJS.

YouKnowWho Academy -- Competitive Programming Guidelines Courses

- Completed courses on competitive programming, covering problem-solving strategies, algorithms and coding practices for contests.
